## The State Department Very Reticent.

Bering Sea and Samoa Tabooed Topics.

A Pleasant Christening Party at the White House.

Some Southern California Postmasters Appointed.—The Public Debt Decreased During the Present Month.

By Telegram to The Times.

WASHINGTON, May 31.—[By the Associated Press.] The State Department officials absolutely decline to discuss the Samoa Conference or Bering Sea tangle. As to the former they admit that matters are in such a shape as to warrant expectation of a conclusion of the conference, comparatively unimportant details only remaining to be adjusted. But on the provisions of the treaty they refuse to talk.

So far as can be learned, there is no new phase in the Bering Sea matter. The President's proclamation appears to have closed the history of the case, and it cannot be learned that there has been any correspondence between the governments of the United States and Great Britain on the subject. According to the position taken by the United States Government by Congressional declaration, the jurisdiction of the United States over the Alaskan side of Bering Sea is not admitted to be a subject for negotiations.

## WASHINGTON NOTES.

## DIVERS FOR WARSHIPS.

Profiting by recent events in Samoa, when the treasure of the wrecked Trenton was recovered by means of diving apparatus borrowed from the British man-of-war Calypso, the Navy Department has determined to equip each of our naval vessels with a complete diving apparatus. A submarine diver is also to be provided as part of the complement of each vessel in commission. No trouble is anticipated in securing suitable men, as there are always members of the crew who make good divers.

## PUBLIC DEBT DECREASED.

It is estimated at the Treasury Department that there has been a decrease of \$8,000,000 in the public debt during the month of May, notwithstanding that the disbursements were nearly \$13,000,000 during the month on account of pensions. The Treasury surplus is now stated at \$54,000,000.

## LETTERS TO THE TIMES.

## An Australian Faith-Healer Exposed.

COLTON, May 29.—[To the Editor of THE TIMES.] Some few years ago, I think about five or six, the writer was living in Fitzroy, one of the suburbs of Melbourne, Australia, when a certain minister named James Alexander Dowrie, who had achieved some little local notoriety as a sensational preacher, was called upon to take the place of a minister named Cherburg in a little chapel in Collingwood, an adjoining suburb, during the absence of that gentleman in Europe. Through some financial juggling on the part of the "Rev." Dowrie Mrs. Cherburg was left in rather embarrassing financial circumstances, such as to necessitate her husband's return from Europe and the subsequent removal from the church of the "Rev. Jem," who subsequently developed into a full-fledged faith-healer, where, for a time, he resided in Melbourne, he made "Rome how" with his so-called faith cures. He then built a large tabernacle in Johnston street, Fitzroy, which was afterward attached by Messrs. Oldfield & Lindley for an unpaid lumber account. Dowrie then graciously adorned the interior of the Melbourne goal by posing therein as a (compulsory) modern Christian martyr for a week or two. The writer has a vivid remembrance of seeing him one Sunday evening, escorted by a lot of police and his own friends from his tabernacle, to an adjacent house, through a hostile mob that had assembled in proportions sufficiently large to temporarily stop the street traffic. The memory of his so-called faith cures soon passed away, and with it Jemmy himself to "fresh fields and pastures new."

Can it be possible that he has gravitated to Los Angeles? If I am wrong I beg the pardon of the gentleman now there, under the same name; if it is the same individual, I do not. If the Rev. Jas. Alexander Dowrie wishes to authenticate his powers beyond all possibility of dispute, why does he not take, say 10 or 15 patients from one of our large hospitals whose cases are known to have an actual existence by the specialists attending them, and after his treating them, let a diagnosis be made of his so-called cures. In the meantime, although, no doubt, he can and does possess a certain amount of magnetic influence over his patients for the time being, no authenticated case of lasting benefit has yet been produced. A man who is reported in the Los Angeles Evening Express of May 28th to have removed cancerous tumors from under the arm of Mrs. Faulkner to an empty sack by simply laying on of his hands is either a man invested with the divine power of performing miracles, and whose powers should be recognized, or else his victims are acting under a temporary magnetic delusion that they are cured, and he should be driven from our midst as a rank impostor. Let actual science prove what he is. Yours obediently,

WILLIAM ANDERSON.

P.S.—I have a dim recollection that at one time he used to breathe through a piece of red flannel upon his patients in performing the operation. W. A.

A Joke on His Mamma.

A capital story is told of a lad of 8 summers who had mastered the German language one winter while being separated from his mother. He was conferring with his father as to how to surprise and delight his mother on the acquaintance of the new tongue, and a brilliant thought struck the young man. "I'll say my prayers in German; that'll surprise her, papa."

The father admitted this was an original plan, but decided not to use it, as it was hardly proper. The boy pleaded, but the father, after almost giving in to the plan, finally vetoed it once for all on the ground of irreverence. This disgusted the 8-year-old, and he said: "You don't seem to understand, papa. It isn't a joke on God; it's on mamma."

Another Richmond and His Name Is Granddaddy.

(San Diego.) The Los Angeles Times looks down this way and thinks it sees some fun in the political situation, and here is how it describes it:

"The pregnant and inflammatory question whether an insidious attempt was made by his enemies to excommunicate Senator Bowers of San Diego from fellowship in the Republican party is agitating political circles, squares and triangles to the southward. And there is lurid oratory in the air."

But if THE TIMES thought the situation was lurid before, wonder what it will think when it hears of the pyrotechnic display which follows the nomination and confirmation of Jacob Grunlike.

A Gypsy Evangelist.

A gypsy evangelist has appeared in the West. Says the Cincinnati Enquirer: "Gypsy Smith broke down all prejudice on Sunday at Trinity Church. He speaks as if composing cable dispatches at a dollar a word. He has but little use for adjectives. No one can fail to understand him. He has far superior tact to Sam Jones in manipulating a congregation. He uses no slang and is never vulgar. Sometimes, like an auroral light, he shoots up a scintillating flame of eloquence, and is always luminous. And the question can be turned the enthusiasm of his hearers into cold cash by those flames of eloquence."

Intelligent Witnesses.

Some queer answers were elicited during an examination of witnesses in a contested election case in Florida. "Who was the Republican candidate for Congress in this district?" was asked. "I don't know." "Would you know the name if mentioned?" "Yes, sir; dat's de man." "Well, who was the Democratic candidate?" "Yes, sir; dat's de vurn Sherman." "Well, what is Congress?" "I don't know, sir." "Is it a man or a woman?" "I think it is a woman." "What kind of a woman?" "A black woman."

Genial, Talented and Distinguished.

Maj. Osborne, the genial and talented editor of the Express, was one of the staff officers present last night at the inspection of the Waterman Rifles. He looks quite soldierly in uniform, but then, the modern editor appears well in almost any role. Doubtless the gallant Major would give as good an account of himself on the field of battle as he has done in the field of journalism, and that is one both creditable and distinguished.

## A Sensible Will.

Charles Whitteymer, an eccentric German living at Mount Holly, N. J., created a sensation by announcing that he had offered his will for probate in order to have his estate settled during his lifetime. A clause in it will provide that one-half of his estate shall go to his wife Betsy so long as she remains his widow, and when she marries again the other half shall be paid to her, as it costs more to keep two than one.

## THE DAY IN POMONA.

## IMPRESSIVE MEMORIAL OBSERVANCES THERE.

The Gathering—The Parade—Scene at the Cenotaph—A Wealth of Flowers—The Veterans and Company D of the Seventh Infantry.

[The following letters have been delayed in the mail one day.—ED. TIMES.] POMONA, May 30.—[Correspondence of THE TIMES.] Memorial day opened with a high fog and cool atmosphere, which changed to bright, warm sunshine about 10 o'clock.

At 9 o'clock the people from the country began to arrive, and soon the streets became crowded with those who came to take part in memorial service. The marshal and aides were on duty, and at 10 o'clock the procession moved

along the designated route and made a fine appearance. First came Marshal George Kirsh, with six aides, sons of veterans; then Company D, N.G.C., 28th, with their commanding officer, strong, preceded by the Pomona band. Next in line was the Pomona Flag Corps, Capt. R. Hall commanding, dressed in beautiful uniforms of red, white and blue, each one carrying a flag and bouquet of flowers. Following these were Vicksburg Post, No. 61, and Ontario Post No. 126, about 70 in line. After these the Band of Hope, two hundred strong. Then came the president, vice-president, orator of the day, clergy and choir in carriages, followed by a long procession of citizens. After marching through the principal streets a hollow square was formed around the cenotaph which had been decorated by the W.B.C. very beautifully. Here the services, as prescribed in our service book, were read by the commander, chaplain and officer of the day. The cenotaph is a structure of wood, representing a monument, fourteen feet high. It was covered with wreaths and garlands and stood on a little knoll which was covered with branches of evergreens. We owe it in memory of our unknown dead. The graves of our comrades buried here were decorated in the early hours of the morning by a committee of the Post and W.B.C. After the officer of the day had deposited his wreath, the veterans marched by the cenotaph and each one laid a bouquet at its base, while the band played a dirge. Then the flag corps performed the same ceremony, as did the Band of Hope. By this time the foot of the column was a mass of beautiful flowers. The firing squad of Company D, then advanced and fired

After marching through the principal streets a hollow square was formed around the cenotaph which had been decorated by the W.B.C. very beautifully. Here the services, as prescribed in our service book, were read by the commander, chaplain and officer of the day. The cenotaph is a structure of wood, representing a monument, fourteen feet high. It was covered with wreaths and garlands and stood on a little knoll which was covered with branches of evergreens. We owe it in memory of our unknown dead. The graves of our comrades buried here were decorated in the early hours of the morning by a committee of the Post and W.B.C. After the officer of the day had deposited his wreath, the veterans marched by the cenotaph and each one laid a bouquet at its base, while the band played a dirge. Then the flag corps performed the same ceremony, as did the Band of Hope. By this time the foot of the column was a mass of beautiful flowers. The firing squad of Company D, then advanced and fired

along the designated route and made a fine appearance. First came Marshal George Kirsh, with six aides, sons of veterans; then Company D, N.G.C., 28th, with their commanding officer, strong, preceded by the Pomona band. Next in line was the Pomona Flag Corps, Capt. R. Hall commanding, dressed in beautiful uniforms of red, white and blue, each one carrying a flag and bouquet of flowers. Following these were Vicksburg Post, No. 61, and Ontario Post No. 126, about 70 in line. After these the Band of Hope, two hundred strong. Then came the president, vice-president, orator of the day, clergy and choir in carriages, followed by a long procession of citizens. By an error in yesterday's Times the name of Gen. H. G. Rollins was omitted, his eloquent oration being introduced simply as that of the orator of the day. The orator was there, the address was there, but the name was among the missing.

A rockaway, containing two ladies and a child, and a wheel pulled out on the railroad track, in front of the People's Store, yesterday morning, letting one side of the vehicle fall to the ground. The horse did not run away, however, and no further damage resulted.

Alejandro Savin, serving a term of one year's imprisonment in the County Jail for contempt of Judge Ross's court, in the case of a man named Crow, yesterday received a telegram announcing the death of his little child at his home, at La Juna, yesterday morning.

Judge Ross gave Savin permission to go to go far as the border, in charge of a doctor, but as the child was dead, he did not accept the offer.

In coming down the hill at that point the horse became frightened, started away, throwing Powell to the ground and dislocating his shoulder and inflicting a serious scalp wound. Yesterday morning counsel made arguments before Judge Clark in the case of Lavina McClain vs. The South Side Irrigation Company. The case was for \$5000 damages alleged to have been done her property in the south-eastern part of the city by sewage water which the company allowed to stand on the land. After the arguments the case was given to the jury and they were unable to agree. The Court being satisfied that they would never come to an agreement discharged them, and the case will be reset for trial at some future trial.

Fausten B. Anderson, a melancholy crank, was committed to Stockton yesterday, after examination before Judge Cheney. He was in the County Hospital for four months, and caused considerable trouble there by some of his eccentricities. Most of the time he was moping, and he stuck to his bed tighter than a leech. But occasionally he would imagine a number of devils were after him, and fire any article handy at them. In this way he demolished several water pitchers, and endangered the heads of several people. He is regarded as a dangerous man, though seemingly so quiet.

## PEOPLE'S STORE.

Daily Bulletin of the Leading Dry Goods House.

Los Angeles, June 1, 1889. At no time in the annals of trade has it been our good fortune to be able to place before the public goods and wares at such low-down prices as at the present. Each year has seen prices lowered, and we feel as though our establishment has been the lever to keep the price in check, and has lowered the cost of goods to a thing which we promised at the beginning of our career. We are not content yet, and each month, each day finds us busy with our sole aim to cheapen the commodities to our patrons and the public generally.

We are handling today a large lot of goods, clothing trade of this town, but are restless—yes, anxious to see you—so come to us, we will convince every man in town that what we say is gospel truth.
